CATALOGUE OF ORNAMENTAL PLANTS SEEDS, Etc.

FOR SALE AT

THE GOVERNMENT BOTANIC GARDENS,
THE NILGIRIS, OOTACAMUND

WITH THEIR NAMES
HABITAT, PRICE
Etc.

By-67. Catalogue Of Ornamental Plants Seeds, Etc

FOURTH REVISED EDITION

PRINTED BY THE SUPERINTENDENT
GOVERNMENT PRESS
MADRAS
1954

Price 9 annas

TNFA - CBE
Centenary Library
05758

1. All orders should be addressed to the Curator.

2. *Local and other orders.*—All orders must be paid for in advance.

3. Only surplus plants and seeds are sold, but the Curator will endeavour to collect seeds or propagate any plants out of stock on being asked to do so.

4. Prices quoted in this list are for about one-year old plants exclusive of packing and forwarding charges.

5. The Curator does not hold himself responsible for any loss or damage after the plants leave the station.

6. Only acclimatized flower and tree seeds are available for sale. Vegetable and imported flower seeds are not sold at the gardens.

7. The full cost of plants, packing and forwarding charges and any other incidentals should be paid in advance, since credit sales are not allowed as per Departmental Rules.

8. Though the catalogue gives a comprehensive list of collections at the gardens, the supply of any of these is subject to availability at the time of receipt of orders.

9. All orders for plants from out of Madras State, shall be sent through the Director of Agriculture of the concerned State.

GOVERNMENT BOTANIC GARDENS, OOTACAMUND (Nilgiris),
25*th December* 1952.

B. G. NARAYANA MENON,
Curator.

CATALOGUE OF ORNAMENTAL PLANTS, SEEDS, ETC.

SHORT HISTORY OF THE GOVERNMENT GARDENS, THE NILGIRIS, WITH THEIR AIMS AND OBJECTS.

The following are the Gardens and Parks on the Nilgiris :—

(1) *Government Botanic Gardens, Ootacamund.*—These were opened during the Governorship of the Marquis of Tweedale in 1847, and covers an area of about 51 acres at an elevation of 7,200 feet. The average annual rainfall is 53·96 inches with occasional frosty nights from December to February. The grounds are beautifully laid out and planted with indigenous and exotic varieties of ornamental trees, shrubs and herbaceous plants. There is a fine terrace laid out with flower-beds in the Italian fashion, two conservatories which are open to the public, and a range of glass houses for propagating and nursing plants on up-to-date lines.

The objects of these and other branch gardens are—

(i) To encourage horticulture in this Presidency and serve as an object lesson to students of botany.

(ii) To introduce exotic, ornamental and economic plants.

(iii) To further the distribution of seeds and plants.

(iv) To serve as a centre for information on the intensive flora of the hills and other exotic collections.

(v) To help sister institutions by supply of valuable botanical specimens and other economic samples like Eucalyptus oil, Jalap, Pyrethrum, Belladona, Digitalis, etc., and to be of use to all, as far as possible, by rendering the garden produce—cut flowers, bouquets, wreaths, crosses, button holes, etc., available for sale to the public of Madras.

(vi) To continue to serve the hill residents and the stream of season visitors every year from all over India, as their chief pleasure resort during their visit to this Queen of Hill Stations.

(2) *Sim's Park, Coonoor.*—Sim's Park, Coonoor, was opened in 1874, as a pleasure ground, for the inhabitants of, and visitors to, Coonoor and Wellington. It is prettily situated in a valley on the north side of Coonoor at an elevation of 5,800–5,900 feet and is about 30 acres in extent. In this Park, there are two well-laid-out terraces on which are grown various kinds of flowers. Many species of trees and shrubs which will not thrive at Ootacamund are grown in this Park.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Pc. 100. (7)	Remarks. (8)
ORNAMENTAL TREES AND SHRUBS.					RS. A.		
1 Abelia grandiflora	Glossy abelia.	Caprifoliaceæ.	China ..	6,000′—7,000′	0 8	..	Flowers and leaves small; former white tinged pink, shrub.
2 Abelia floribunda ..	..	Do.	Mexico ..	6,000′—7,000′	0 8	..	A splendid semi-scandent shrub, large pendulous flowers, rosy purple.
3 Abutilon "Boule de Neige." 4 A. "Golden Fleece" 5 A. Megapotamicum. 6 A. Milleri .. 7 A. Pink .. 8 A. Variegata ..	Chinese Lantern or Chinese Bellflower.	Malvaceæ ..	Brazil ..	6,000′—7,000′	0 8	..	Slender wiry growths with numerous bell shaped orange yellow, with bronze anthers, red and yellow flowers, etc.
9 Acacia armata ..	Kangaroo thorn.	Leguminoseæ	Australia ..	6,000′—7,000′	0 8	..	Slow growing shrubs with yellow flowers.
10 A. Baileyana ..	Cootamandra wattle.	Do.	Do.	6,000′—7,000′	0 8	..	A very pretty free flowering species suitable also for potculture produces masses of yellow flowers.
11 A. Confusa ..	..	Do.	East India	6,000′—7,000′	0 8	..	....
12 A. dealbata ..	Silver wattle	Do.	Australia and Tasmania.	6,000′—7,000′	0 8	..	A quick growing, free flowering tree with yellow flowers.
13 A. decurrens ..	Black wattle	Do.	Australia ..	6,000—7,000′	0 8		The well known tanning bark tree with flowers cream coloured.
14 A. discolor ..	Queensland silver wattle.	Do.	Do.	6,000—7,000′	1 0	..	A small tree with deep yellow flowers.
15 A. elata ..	Cedar wattle	Do.	Do.	6,000′—7,000′	1 0	..	Handsome tree 50-60′ height with dark green foliage and pubescent shoots.
16 A. longifolia ..	Sallow Acacia.	Do.	Do.	6,000′—7,000′	0 8	..	A shrub with long leaves, flowers in long spikes of rich yellow and white fragrant flowers.
17 A. melanoxylon ..	Blackwood Acacia.	Do.	Do.	6,000′—7,000′	0 8	..	A large tree useful as wind belts.
18 A. pravissima ..	..	Do.	Do.	6,000′—7,000′	0 8	..	A small tree with conspicuous ornamental branches and leaves with yellow flowers sweet scented.
19 A. podalyrifolia ..	Queensland silver wattle.	Do.	Do.	6,000′—7,000′	0 8	..	A shrub with beautiful bluish green foliage and large yellow flowers.
20 A. pruinosa ..	Mottlebarked wattle.	Do.	Do.	6,000′—7,000′	0 8	..	A pretty tree with yellow flowers.
21 A. pulchella ..	..	Do.	New Holland and Australia.	6,000′—7,000′	0 8	..	A small tree with yellow flowers.
22 A. suaveolens ..	..	Do.	Do.	6,000′—7,000′	0 8	..	A glabrous shrub 3–6′.
23 Acer Campbelli ..	..	Aceraceæ ..	Himalayas ..	6,000′—7,000′	0 8	..	A tree with a well shaped straight trunk and a rounded spreading head and very large palmate leaves.
24 A. caudatum ..	..	Do.	Do.	6,000′—7,000′	0 8	..	A large sized deciduous tree with flowers in terminal and axillary corymbs.
25 A. laevigatum ..	..	Do.	Do.	6,000′—7,000′	0 8	..	A large tree , with conspicuous venation of leaves.
26 A. negundo ..	Box elder ..	Do.	N. America.	6,000′—7,000′	0 8	..	Medium sized tree with yellow green foliage and flowers.
27 A. negundo var. elegantissima aurea.	..	Do.	Do.	7,000′ ..	0 8	..	Very fine foliage nicely variegated pale yellow and green.
28 A. oblongum ..	Maple ..	Do.	Nepal ..	7,000′ ..	0 8	..	A grand tree.
29 Aesculus punduana.	Horse chestnut.	Sapindaceæ	Sikkim ..	7,000′ ..	0 8	..	A medium sized tree resembling English Horse chestnut with showy white flowers in upright terminal panicles.
30 Agathis robusta ..	Queensland Kauri pine.	Coniferæ ..	Queensland.	7,000′ ..	0 8	..	A tall tree with horizontal branches.

ORNAMENTAL TREES AND SHRUBS—*cont.*

					RS. A.		
31 Ailanthus excelsa	Tree of Heaven.	Simarubaceæ.	..	6,000′	0 8	..	A large deciduous tree with long pinnate leaves changing to yellow before shedding.
32 Albizzia Julibrissin.	Silk tree	Leguminoseæ.	Asia	6,000′	0 8	..	A small acacia like tree with panicles of pink flowers.
33 A. lophantha	Plume acacia.	Do.	Holland	6,000′	0 8	..	A quick growing tree with showy pink flowers.
34 A. stipulata	..	Do.	India	6,000′	0 8	..	A handsome tree also used as shade for tea having a broad crown.
35 Aleurites Fordii	Tungoil tree.	Euphorbiaceæ	China, South East Africa.	6,000′	0 8	..	A hardy evergreen shade and ornamental tree yielding tung oil from its seeds.
36 Alnus nepalensis	Alder	Betulaceæ	Nepal	6,000′	0 8	..	A tall quick growing tree with smooth grey bark; suitable for wet situations. The pendulous catkins of flowers are attractive.
37 Alsophila Australis.	Tree fern	Cyatheaceæ.	Australia	6,000′	0 8	..	A tree fern with strawcoloured rachises.
38 A. crinita	Do.	Do.	Nilgiris and Ceylon.	5,000′—7,000′	0 8	..	A lofty tree fern—By far the most beutiful of all the tree ferns.
39 Amelia Sps.	..	Ericaceæ	..	5,000′—7,000′	0 8	..	....
40 Angophora subvelutina.	Gum myrtle.	Myrtaceæ	Australia	5,000′—7,000′	0 8	..	Closely allied to Eucalyptus—very tall growing up to 100′ with rough bark and large sized leaves and bunches of white flowers.
41 Aralia gracillima	..	Araliaceæ	China	7,000′	0 8	..	....
42 A. papyrifera	Rice paper plant.	Do.	Do.	7,000′	0 8	..	Shrubs with very showy foliage.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude (5)	Each. (6)	Per 100. (7)	Remarks. (8)
43 A. Sieboldii	Fig leaf palm	Do.	Do.	7,000′	0 8	..	A large shrub with shining leaves bearing clusters, white flowers and purple berries.
44 Araucaria Bidwillii.	Monkey puzzle.	Coniferæ	Australia	3,000′—7,000′	2 0	..	An evergreen tree with sharp pointed, thick and shining leaves.
45 A. Cookii	Cook's Araucaria.	Do.	Norfolk Island	3,000′—7,000′	2 0	..	Similar to A. excelsa, though branches are not so symmetrical.
46 A. excelsa	Norfolk Island pine.	Do.	Do.	3,000′—7,000′	2 0	..	Particularly nice variety with extremely regular tiers of flat soft-leaved branches.
47 A. Cunninghamii	Moreton Bay pine.	Do.	Australia	3,000′—7,000′	2 0	..	Attaining a good height and girth. A remarkable spp. with clear stem for a considerable height at the base.
48 A. Rulei	..	Do.	China	3,000′—7,000′	2 0	..	Reaching 50′ in height, with broad leaves.
49 A. Unedo	Tree strawberry.	Ericaceæ.	South Europe.	3,000′—7,000′	0 8	..	Tree with smooth reddish bark and dark glossy leaves—flowers small and bell shaped and red strawberry like fruits.
50 Artemisia parviflora	..	Compositæ..	..	3,000′—7,000′	0 8	..	An aromatic shrub.
51 Atylosia candollei	..	Leguminosæ.	..	3,000′—7,000′	0 8	..	Shrub of 2 feet height and flowers with the smell of musk.
52 Azalea indica (many varieties).	False honey suckle.	Ericaceæ	China	6,000′—7,000′	0 8	..	Flowers profusely, low growing shrub.
53 Aucuba Japonica	Gold dust tree or spotted laurel.	Cornaceæ	Japan	6,000′—7,000′	0 8	..	A shrub with glossy foliage spotted with yellow.
54 Baeckea virgata	Australian May.	Myrtaceæ	New Granada.	..	0 8	..	A loosely branched shrub with slender twigs and spiny leaves.
55 Bambusa Fortuneii.	Variegated bamboo.	Gramineæ.	Japan	6,000′—7,000′	0 8	..	A fine plant for wild garden.
56 B. nana	..	Do.	India	6,000′—7,000′	0 8	..	A dwarf species which makes a beautiful hedge.
57 Banksia marginata.	..	Proteaceæ	Australia	6,500′	0 8	..	One of the bottlebrush trees.

ORNAMENTAL TREES AND SHRUBS—*cont.*							
58 Begonia fuchsioides	Shrub begonia or Elephant's ears.	Begoniaceæ.	New Granada.	4,000′—7,000′	0 8	..	A soft wooded shrub bearing quantities of scarlet flowers.
59 Berberis lycium	..	Berberidaceæ.	Himalayas	6,000′	0 8	..	A species of distinct habit with bright yellow flowers, flowering and fruiting profuse.
60 a. Berberis Umbellata.	..	Do.	Bhutan	..	0 8	..	A species with open upright growth and thick red stem.
61 b. Berberis tinctoria.	..	Do.	..	..	0 8	..	A small shrub bearing yellow flowers—fruits edible.
62 B. vulgaris	Common Barberry.	Do.	Himalayas	6,000′	0 8	..	An effective bronze leaved variety.
63 Betula alnoides	Birch	Betulaceæ	Do.	6,000′	0 8	..	A big sized elegant tree with branches and leaves of hanging tendency. The bark peals off in patches.
64 Biota compacta	..	Coniferæ	..	6,000′	1 0	..	The best species of the genus, dwarf, compact with slow growth suitable for rock gardens.
65 B. orientalis	Chinese arborvitae.	Do.	China and Japan.	6,000′	1 0	..	A low evergreen shrub of pyramidal shape with much branched trunk and rich green foliage.
66 B. orientalis var. aurea.	Do.	Do.	Do.	6,000′	1 0	..	A dense growing shrub with erect or upcurved branches with bright green to golden foliage.
67 Boronia megastigma	..	Rutaceæ	Australia	6,000′	0 8	..	Flowers maroon purple outside and yellow inside.
68 Brahea robusta	Railway palm.	Palmaceæ	Mexico	6,000′—7,000′	1 0	..	A hardy palm with fan shaped leaves.
69 Broussonetia Papyrifera.	Paper mulberry.	Moraceæ	Malaya and Japan.	..	1 0	..	A tall shrub with large variably shaped leaves and clusters of orange yellow female flowers.
70 Buddleia Davidii	Butterfly bush, or Summer Lilac.	Loganiaceæ.	China	5,000′—7,000′	0 8	..	Flowers lilac purple with orange eye.
71 B. globosa	Orange ball tree.	Do.	Chile	5,000′—7,000′	0 8	..	Heads of orange ball flowers useful for shrubberies.
72 B. intermedia	..	Do.	Do.	5,000′—7,000′	0 8	..	Upright habit with distinctly winged branches.
73 B. Lindleyana	..	Do.	Do.	5,000′—7,000′	0 8	..	Flowers deep violet—a shrub.
74 B. Madagascariensis.	..	Do.	Madagascar.	6,000′	0 8	..	Straggling shrub with densely tomentose branchlets with dark green lustrous leaves and flowers in large terminal panicles appearing in winter.
75A B. Officinalis	..	Do.	China	6,000′	0 8	..	Tongue-shaped soft silky leaves, flowers lilac with orange eye, fragrant and in terminal panicles.
75B B. Variabilis	Lilac Flowering Buddleira.	..	..	..	0 8	..	Drooping panicles of long rose-like flowers.
76 Buxus sempervirens.	Box Tree	Buxaceæ	Europe	4,000′—8,000′	0 8	..	Evergreen shrub—can be pruned and trimmed—useful for hedges.
77 Calliandra brevipes.	..	Leguminoseæ.	Brazil	6,000′	0 8	..	A slow growing shrub with lovely pink flowers.
78 Callicoma serratifolia	..	Saxifragaceæ.	Australia	7,000′	0 8	..	A big tree with serrated leaves and creamy white flowers.
79 Callistemon citrinus.	Bottlebrush.	Myrtaceæ	California	2,000′—7,000′	0 8	..	A hardy shrub with bright pink flowers.
80 C. lanceolatus	Do.	Do.	Australia	6,000′	0 8	..	Very ornamental tree with hanging bottlebrush like red flowers.
81 C. rigidus	Stiff bottlebrush.	Do.	Do.	6,000′	0 8	..	Compact bushy tree with dark green narrow pointed leaves and brilliant red stiff bottle brush flowers.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude at which the plant is most likely to thrive.	Price Each.	Price Per 100.	Remarks.

ORNAMENTAL TRESS AND SHRUBS—*cont.*

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each (RS. A.)	Per 100.	Remarks.
82 Camellia Japonica.	Japanese Rose.	Ternstroemiaceæ.	Japan	6,000′—7,000′	1 8	..	A genus of hardy evergreen tree with pure white, pink and dark red flowers.
83 C. reticulata	..	Do.	China	6,000′—7,000′	1 8	..	Another garden species with double purple large sized flowers, more gorgeous in appearance than the above.
84 C. sasanqua	Sasanqua Camellia.	Do.	Do.	6,000′—7,000′	1 8	..	A plant with single large-sized fragrant bright rose-coloured flowers.
85 C. thea	Tea plant	Do.	Do.	6,000′—7,000′	0 8	..	Very nearly related to the above—widely cultivated on the Nilgiris.
86 Cantua buxifolia	..	Polemoniaceæ.	Andes	6,000′—7,000′	0 8	..	Shrub with orange red tubular flowers.
87 Carica candamarcensis.	Hill papaya.	Papayaceæ.	Nilgiris	6,000′—7,000′	0 8	..	A soft wooded tree bearing quantities of fruits which are delicious when stewed.
88 Caryopteris Mastacanthus (incana).	The Chinese blue spiraea.	Verbenaceæ.	China	7,000′	0 8	..	A deciduous shrub with sage-grey leaves and heads of lavender blue flowers. Height 1 foot—suitable for borders, shrubery and rockery.
89 Cassia didymobotrya	Senna	Leguminoseæ.	Australia	3,000′—6,000′	0 8	..	Flowers tubular, orange and red.
90 C. fistula	Golden shower	Do.	West Indies.	3,000′—6,000′	0 8	..	Flowers yellow in pendulous bunches
91 C. laevigata	Smooth senna	Do.	Do.	3,000′—6,000′	0 8	..	A free flowering shrub with yellow flowers.
92 Castanospermum Australe.	Moreton Bay Chestnut.	Do.	Australia	3,000′—6,000′	0 8	..	A large evergreen tree with red flowers.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each (RS. A.)	Per 100.	Remarks.
93 Casuarina montana.	Beefwood	Casuarinaceæ.	Malaya	6,000′	0 8	..	A quick growing tree useful as hedge and as wind break amenable to topiary work.
94 Cedrela Toona	Red cedar	Meliaceæ	Himalayas	..	1 0	..	Medium-sized tree with white flowers, also a good timber tree.
95 Cedrus deodara.	Himalayan cedar.	Pinaceæ	Do.	6,000′	1 0	..	A tall tree with dark blue foliage.
96 Celtis serotina	Hackberry nettle tree.	Ulmaceæ	Do.	6,000′	1 0	..	A middle-sized deciduous tree with light green foliage.
97 Ceratostigma Griffithii.	..	Plumbaginaceæ.	Do.	6,000′	1 0	..	A low shrub with blue flowers often showing good leaf colour.
98 C. Wilmottianum	..	Do.	Japan	6,000′	1 0	..	Bigger than the above, beautiful hardy shrub with deep blue flowers.
99 Cestrum aurantiacum.	Queen of the nights.	Solanaceæ	Guatemala	6,000′	0 8	..	A beautiful shrub with golden wax like flowers.
100 C. diurnum	Day queen	Do.	Do.	6,000′	0 8	..	Scented white flowers in small clusters, polished, handsome and compact foliage.
101 C. elegans	..	Do.	Mexico	6,000′	0 8	..	A beautiful shrub with red flowers.
102 C. fasciculatum	..	Do.	Do.	6,000′	0 8	..	Similar to above. Flowers purple.
103 C. parqui	Night queen.	Do.	Guatemala	6,000′	0 8	..	An evergreen shrub producing insignificant yellow flowers all the year round, very fragrant at nights.
104 Chaemerops Fortuneii.	China fan palm.	Palmaceæ	Japan	6,000′	1 0	..	A hardy palm.
105 Choisya ternata	Mexican orange flower.	Rutaceæ	Mexico	6,000′	1 0	..	A dwarf shrub with white sweet-scented flowers.
106 Cinchona officinalis.	..	Rubiaceæ	Equador	6,000′—7,500′	0 8	..	A small tree bearing red flowers. The bark contains quinine.
107 C. succirubra	..	Do.	Peru	6,000′—7,500′	0 8	..	A large tree with red flowers in cymose panicles.
108 Cinnamomum camphora.	Camphor tree.	Lauraceæ	China	3,000′—7,000′	0 8	..	Beautiful tree which produces the camphor of commerce.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude at which the plant is most likely to thrive.	Price Each.	Price Per 100.	Remarks.
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

ORNAMENTAL TREES AND SHRUBS—*cont.*

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each. RS. A.	Per 100.	Remarks.
109 C. zeylanicum	Cinnamon tree	Lauraceæ	Burma	3,000′	0 8	..	A beautiful tree the bark of which produces the Cinnamon of commerce.
110 Cistus albidus	Rock rose	Cistaceæ	Mediterranean region.	4,000′—7,000′	0 8	..	Shrub with lilac flowers.
111 C. incanus	Do.	Do.	Europe	4,000′—7,000′	0 8	..	Shrub. Flowers reddish purple.
112 C. ladaniferus	Bog cistus	Do.	Spain	4,000′—7,000′	1 0	..	Shrub, 3′ height with single large white flowers with red blotches on each petal.
113 Clerodendron serratum.	..	Verbenaceæ.	Himalayas.	4,000′—7,000′	1 0	..	Hardy bush with attractive blue flowers. Leaves edible.
114 C. Ugandense	Glory bower	Do.	Do.	4,000′—7,000′	1 0	..	Handsome shrub with terminal racemes of blue flowers.
115 C. Splendens	..	Do.	Do.	4,000′—7,000′	0 8	..	Handsome shrub with dark red flowers.
116 Clethra arborea	..	Clethraceæ	Madeira	4,000′—7,000′	1 0	..	A slow-growing shrub with heather like flowers.
117 Colletia ferox	The anchor plant.	Rhamnaceæ.	Chile	4,000′—7,000′	0 8	..	A curious prickly shrub.
118 Coprosma Baueri var variegata.	..	Rubiaceæ	New Zealand.	4,000′—7,000′	1 0	..	A pretty variegated shrub.
119 Coprosma Lucida	..	Rubiaceae	Do.	7,000′	0 8	..	Beautiful shrub with evergreen foliage.
120 Cordyline australis	Club palm	Liliaceae	Do.	7,000′	1 0	..	A palm-like tree.
121 C. Banksii	Do.	Do.	Do.	7,000′	1 0	..	Similar to above, but leaves with graceful and drooping habit.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each.	Per 100.	Remarks.
122 C. indivisa	Brown narrow-leaf dracaena.	Do.	Do.	7,000′	1 0	..	A good foliage plant.
123 Coriaria Japonica	..	Coriariaceae.	Japan	6,000′	0 8	..	Shrubs with quadrangular branches, flowers in axillary racemes, fruits becoming red changing to violet to black when ripe.
124 Cornus capitata	Dogwood	Cornaceæ	Kulu	6,000′	0 8	..	Evergreen tree with showy flowers and fruits.
125 Corynocarpus lævigata.	New Zealand Laurel.	Anacardiaceæ.	New Zealand.	6,000′	0 8	..	A tree with large glossy leaves and yellow berries.
126 Cotoneaster bacillaris.	Rose box	Rosaceæ	Himalayas	7,000′	0 8	..	Stiff recumbent shrub with small white flowers red fruits.
127 C. buxifolia	Rockspray	Do.	Nilgiris	7,000′	0 8	..	Similar to above.
128 C. frigida	..	Do.	Do.	7,000′	0 8	..	A low spreading tree with arge clusters of scarlet berries.
129 C. multiflora	..	Do.	Himalayas	7,000′—7,000′	0 8	..	....
130 Crossandra undulæfolia.	..	Acanthaceæ.	India	6,000′—7,000′	0 8	..	A shrub, dwarf, flowers orange and yellow.
131 Crotolaria agatiflora.	Rattle box	Leguminoseæ.	East Africa	6,000′—7,000′	0 8	..	A large shrub bearing greenish yellow 'pea' shaped flowers.
132 C. barbata	..	Do.	Nilgiris	6,000′—7,000′	0 8	..	A sturdy shrub with erect spikes of rich yellow flowers.
133 C. formosa	..	Do.	Do.	6,000′—7,000′	0 8	..	A shrub with tawny hairs on the stem and very dense short racemes of large yellow flowers.
134 Cryptomeria Japonica.	Japan cedar.	Pinaceæ	Japan	6,000′—7,000′	0 8	..	A medium sized compact tree.
135 Cupressus arizonica.	The Arizona Cypress	Do.	California	6,000′—7,000′	1 0	..	A handsome pyramidal tree with greyish green foliage, one of the hardiest of the Cypresses.
136 C. Benthami	Mexican Cypress.	Do.	Mexico	6,000′—7,000′	1 0	..	A very handsome fast growing spp.
137 C. Funebris	Weeping Cypress.	Do.	North-east China.	6,000′—7,000′	1 0	..	A graceful tree used largely in cemetries.
138 C. Glauca	Cedar of Goa.	Do.	East Indies.	6,000′—7,000′	1 0	..	Medium sized pendulous tree of subpyramidal shape.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Per 100. (7)	Remarks. (8)
ORNAMENTAL TREES AND SHRUBS—*cont.*							
					RS. A.	RS. A.	
139 C. Goveniana ..	Gowen cypress.	Pinaceæ.	California ..	6,000′—7,000′	1 0	..	A tree with slender erect spreading branches forming a handsome open head.
140 C. Lawsoniana ..	White Cedar	Do.	Do. ..	6,000′—7,000′	1 0	..	Small compact tree.
141 C.L. var. Fletcheri.	Lawson's Cypress.	Do.	Do. ..	6,000′—7,000′	1 0	..	Dwarf and compact suitable for planting on lawns.
142 C. Lindleyi ..	Knight's Cypress.	Do.	Mexico ..	6,000′—7,000′	1 0	..	Very graceful and rare Cypress of 30 feet high with conical head.
143 C. macrocarpa ..	Monterey Cypress.	Do.	California ..	6,000′—7,000′	0 2	5 0	A large tree useful for avenues, windbelts and hedges.
144 C. obtusa	Fernspray Cypress.	Do.	Japan ..	6,000′—7,000′	0 8	..	Small compact tree suitable for the lawns.
145 C.O. var. gracilis ..	..	Do.	California ..	6,000′—7,000′	0 8	—	An elegant form with semiweeping branchlets.
146 C. Sempervirens ..	Italian Cypress.	Do.	Europe ..	6,000′—7,000′	1 0	—	Tree, tall with erect branches and of stately pyramidal shape.
147 C. torulosa ..	Bhutan Cypress.	Do.	Himalayas	6,000′—7,000′	1 0	..	A large tree useful for avenues and windbelts.
148 Cyperus alternifolius.	Umbrella plant.	Cyperaceæ ..	..	6,000′—7,000′	0 8	..	An ornamental bush.
149 Cytisus canariensis.	Common broom.	Leguminosæ.	Canary Islands.	6,000′—7,000′	0 8	..	Small shrub with fine leaves and small bright yellow flowers.
150 C. scoparius ..	Yellow Scotch, broom.	Do.	Europe ..	6,000′—7,000′	0 8	..	Useful as shrubberies.
151 C.S. var. alba ..	White broom	Do.	Do.	6,000′—7,000′	0 8	..	Flowers white.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude (5)	Each (6)	Per 100 (7)	Remarks (8)
152 Dahlia variabilis —	Tree Dahlia	Compositæ.	North America.	6,000′—7,000′	0 8	..	A weak shrub with variable flowers.
153 Datura arborea —	Angel's trumpet.	Solanaceæ ..	Peru ..	6,000′—7,000′	0 8	..	A bold quick growing shrub with large white bell-like flowers.
154 D. coccinea —	Thorn apple.	Do. ..	Do. ..	6,000′—7,000′	0 8	..	Quick growing shrub with red flowers.
155 D. cornigera —	—	Do. ..	Do. ..	6,000′—7,000′	0 8	..	Flowers creamy white double.
3 156 D. cornucopa —	Jamestown weed.	Do. ..	Do. ..	6,000′—7,000′	0 8	..	Double and triple flowers variety.
157 D. sanguinea —	Thorn apple.	Do. ..	Do. ..	6,000′—7,000′	0 8	..	An elegant shrub, flowered red.
158 D. suaveolens —	Angel's trumpet.	Do. ..	Mexico ..	6,000′—7,000′	0 8	..	A shrub growing 10—15′ with glabrous leaves.
159 Daphne Odora —	—	Thymeliaceæ.	China ..	6,000′—7,000′	1 0	..	A beautiful shrub with pink flowers.
160 Dendrocalamus sikkimensis.	—	Gramineæ ..	Sikkim ..	4,000′—6,000′	1 0	..	A tall bamboo growing to 50 feet.
161 Desmodium rufescens.	—	Leguminoseæ.	Nilgiris ..	4,000′—6,000′	0 8	..	Shrub with purple to deep blue flowers, pods curved and reflexed in dense spikes.
162 Deutzia scabra —	Wedding bells.	Saxifrageace.	Japan ..	4,000′—6,000′	0 8	..	Very showy shrub with white flowers.
163 Dictamnus fraxinella.	Burning bush.	Rutaceæ ..	Europe ..	4,000′—6,000′	0 8	..	A striking border plant.
164 Diervilla florida —	—	Caprifoliaceæ.	North America.	4,000′—6,000′	0 8	..	A beautiful shrub with large heads of pink flowers.
165 Diospyros virginiana.	Persimmon..	Ebenaceæ ..	Do.	7,000′ ..	0 8	..	A middle sized tree, with drooping branches ornamental.
166 Dodonea viscosa —	—	Sapindaceæ.	..	..	0 8	..	An evergreen shrub, with flowers and ornamental pods.
167 Dombeya natalensis.	—	Sterculiaceæ.	South California.	..	0 8	..	Flowers pure white.
168 D. spectabilis —	—	Do.	South Africa.	..	0 8	..	Flowers in dark pink clusters.
169 Doryanthus excelsa.	Spear lily —	Amaryllideæ.	Australia ..	..	0 8	..	Ornamental leaves formed in a large rosette at the base, lance shaped leaves up to 6 feet long, bearing terminal clusters of scarlet flowers.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Per 100. (7)	Remarks. (8)

ORNAMENTAL TREES AND SHRUBS—*cont.*

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each. RS. A.	Per 100.	Remarks.
170 Dracæna draco	Dragon tree	Liliaceæ	Canary Islands.	..	1 0	..	An erect stem with a large branching head.
171 Dracaena sps.	..	Do.	Do.	5,000′—7,000′	2 0	..	A tall tree with red drooping leaves.
172 Drimys winteri	Winter's bark.	Magnoliaceæ.	America	5,000′—7,000′	0 8	..	A small tree with milk white fragrant flowers.
173 Duranta Plumeri	Golden dew drop.	Verbenaceæ.	Do.	5,000′—7,000′	0 8	..	A large bushy shrub with small pretty blue flowers.
174 Ecbolium linneanum.	..	Acanthaceae.	India and Africa.	5,000′—7,000′	0 8	..	A small shrub with greenish light blue flowers.
175 Elaeocarpus ganitrus.	Utrasum	Tiliaceae	East Indies	5,000′—7,000′	0 8	..	A large tree with white flowers in compact drooping racemes.
176 E. Munroii	..	Do.	Nilgiris	5,000′—7,000′	0 8	..	Leaves glabrous—flowers in short racemes.
177 E. oblongus	..	Do.	Australia	5,000′—7,000′	0 8	..	Evergreen tree with penniveined leaves and some what showy flowers with edible fruits.
178 E. reticulatus	..	Do.	Do.	5,000′—7,000′	0 8	..	A small tree with serrate leaves and small sized round fruits.
179 Elaeagnus latifolia.	..	Elaeagnaceae.	Himalayas	5,000′—7,000′	0 8	..	A dwarf tree or scandent shrub with yellow flowers and the underside of the green foliage clothed with silvery scales and edible berries.
180 Erica aroborea	Tree heath	Ericaceae	South Europe.	6,000′—7,000′	1 0	..	Small tree bearing numerous white flowers.
181 E. carnea	..	Do.	Do.	6,000′—7,000′	1 0	..	Similar to the above but with pink flowers.
182 Eriobotrya Japonica.	Loquat	Rosaceae	Japan	4,000′—6,000′	1 0	..	A handsome tree fruits of which are used for preserves and stewing.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each.	Per 100.	Remarks.
183 Eriostemon myoporoides.	..	Rutaceae	Australia	4,000′—6,000′	0 8	..	Medium sized shrub with profuse flowering.
184 Erythrina crista-galli.	Coral tree	Leguminosceae.	Brazil	4,000′—6,000′	0 8	..	A tree with terminal spikes and bright mahogany red flowers.
185 Escallonia floribunda.	..	Saxifrageae.	New Granada.	4,000′—6,000′	0 8	..	A tree with white flowers.
186 E. organensis	..	Do.	Brazil	4,000′—6,000′	2 0	..	New to Nilgiris—large flowers lovely pink.
187 E. macrantha	..	Do.	South America.	4,000′—6,000′	0 8	..	Very beautiful tree with crimson red flowers.
188 Eucalyptus amygdalina.	Peppermint gum.	Myrtaceae	..	5,000′—6,000′	0 8	..	A large growing gigantic tree with narrow pendulous foliage attaining a height of 400′.
189 E. botryoides	Bastard Mahogany.	Do.	..	5,000′—6,000′	0 8	..	Tree with dense shady crown and shining dark green leaves.
190 Eucalyptus Calophylla.	Port Gregory Gum.	Do.	South America.	5,000′—6,000′	0 8	..	A hardy and attractive tree.
191 E. camphora	..	Do.	..	5,000′—6,000′	0 8	..	Height 60′ with leathery leaves, branches tending to spread.
192 E. citriodora	Lemon scented Gum.	Do.	Australia	5,000′—6,000′	0 8	..	A tall tree with pendulous beautiful branches—yields a very valuable lemon-scented oil.
193 E. cornuta	Yate Tree	Do.	..	5,000′—6,000′	0 8	..	....
194 E. corymbosa	Blood wood.	Do.	..	5,000′—6,000′	0 8	..	A timber tree.
195 E. crebra	Narrow leaved-Iron bark.	Do.	..	5,000′—6,000′	0 8	..	A large tree with slender drooping branches.
196 E. deanii	..	Do.	..	5,000′—6,000′	0 8	..	....
197 E. dives	..	Do.	..	5,000′—6,000′	0 8	..	....
198 E. eugenoides	Red-Gum	Do.	..	5,000′—6,000′	0 8	..	A tall tree with hanging leaves.
199 E. ficifolia	Crimson coloured flowering gum.	Do.	Australia	5,000′—6,000′	0 8	..	A small tree producing immense heads of lovely scarlet or deep orange coloured flowers.
200 E. gigantea	..	Do.	Do.	6,000′—7,000′	0 8	..	....

ORNAMENTAL TREES AND SHRUBS—*cont.*

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each. RS. A.	Per 100. RS. A.	Remarks.
201 E. globulus	Blue gum	Myrtaceæ	Australia	6,000′—7,000′	0 4	10 0	A timber tree, leaves of which yield the common Eucalyptus oil.
202 E. goniocalyx	The spoted gum tree.	Do.	Do.	6,000′—7,000′	0 8	..	....
203 E. Gunnii	Cedar gum	Do.	Do.	6,000′—7,000′	0 8	..	A very hard glaucous leaved tree.
204 E. hemiphloia	Gray box	Do.	Do.	6,000′—7,000′	0 8	..	A medium sized tree growing to about 90′ with greyish bark.
205 E. hem. var. albens.	White box	Do.	Do.	6,000′—7,000′	0 8	..	....
206 E. leucoxylon	White Iron bark.	Do.	Do.	6,000′—7,000′	0 8	..	A tree with falcate lenceolate leaves.
207 E. longifolia	Wolly butt.	Do.	Do.	6,000′—7,000′	0 8	..	A tall tree with slender branchlets and long sickle shaped leaves.
208 E. macrandra	..	Do.	Do.	6,000′—7,000′	0 8	..	....
209 E. maculata	Spotted gum.	Do.	Do.	6,000′—7,000′	0 8	..	A big handsome tree 150′ smooth, white grey bark.
210 E. manicata	..	Do.	Do.	6,000′—7,000′	0 8	..	....
211 E. marginata	Jarrah	Do.	Do.	6,000′—7,000′	0 8	..	A large tree 150′ height with durable timber.
212 E. melliodora	Honey scented gum.	Do.	Do.	6,000′—7,000′	0 8	..	A lemon scented leaved spp.
213 E. microcorys	Tallow wood gum.	Do.	Do.	6,000′—7,000′	0 8	..	....
214 E. Muelleri	Stringy bark.	Do.	Do.	6,000′—7,000′	0 8	..	A timber tree.
215 E. paniculata	Grey Iron bark.	Do.	Do.	6,000′—7,000′	0 8	..	A narrow leaved pyramid shaped timber tree.
216 E. pilularis	Black butt	Do.	Do.	6,000′—7,000′	0 8	..	Slender tree averaging 100–150′ high.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each. RS. A.	Per 100. RS. A.	Remarks.
217 E. piperita	Peppermint stringy bark.	Do.	Do.	6,000′—7,000′	0 8	..	A tall tree with scented foliage with distinct oil glands.
218 E. punctata	Leather, Jacket, Hickorgum.	Do.	Do.	6,000′—7,000′	0 8	..	80′ smooth ashy coloured bark. Leaves marked with oil dots.
219 E. redunca	White gum.	Do.	Do.	6,000′—7,000′	0 8	..	65′ rough bark. Timber good for building.
220 E. regnans	Giant gum	Do.	Do.	6,000′—7,000′	0 8	..	Smooth white bark peeling off in linear strips, leaves with oil dots.
221 E. resinifera	Red Mahogany gum.	Do.	Do.	6,000′—7,000′	0 8	..	Trees with rough bark and angular branchlets.
222 E. robusta	Brown gum, Swamp mahogany.	Do.	Do.	6,000′—7,000′	0 8	..	Tree having unequally sided leaves.
223 E. rostrata	Red greek gum.	Do.	Do.	6,000′—7,000′	0 8	..	Extremely hard and durable handsome large tree.
224 E. Caesia	..	Do.	Do.	6,000′—7,000′	0 8	..	....
225 E. saligna	Flooded gum tree.	Do.	Do.	6,000′—7,000′	0 8	..	A tree with smooth stem bark. Yields good timber.
226 E. Smithii	..	Do.	Do.	6,000′—7,000′	0 8	..	120′ bark of young branches and trunk peels off in linear strips.
227 E. staigeriana	..	Do.	Do.	6,000′—7,000′	0 8	..	Erect tree with clear stem mostly without branches.
228 E. tereticornis	Slatedor forest red gum.	Do.	Do.	6,000′—7,000′	0 8	..	Leaves falcate with distinct intramarginal veins; a quick growing spp.
229 E. viminalis	Manna gum.	Do.	Do.	6,000′—7,000′	0 8	..	....
230 Eugenia apiculata.	..	Do.	Chile	7,000′	0 8	..	A strong growing shrub bearing white myrtle-like flowers.
231 E. arnottiana	Umbrella tree of Ooty.	Do.	..	7,000′	0 8	..	Comes up well—fruits edible, small leaves with white flowers.
232 E. caryophyllata	Clove plant.	Do.	Moluccas	3,000′	0 8	..	A tall shapely tree—the unexpanded flower beds of which, when dried, becomes the clove.

233 Eugenia montana ..	..	Myrtaceae ..	..	6,000′	0 8	..	A large tree with wings on the four edges on the youngest branches esp. in the flowering part.
234 E. Smithii	..	Do. ..	Chile ..	6,000′	0 8	..	An evergreen small sized tree.
235 Euonymus Japonicus.	Golden pillar or Spindle tree.	Celastrineae.	Japan ..	7,000′	0 8	..	A very ornamental shrub.
236 E. Radicans var. argenteo-variegatus.	Winter creeper.	Do.	Do. ..	7,000′	0 8	..	Do. Leaves variegated white.
237 E.R. var aureus ..	..	Do.	Do. ..	7,000′	0 8	..	Do. Leaves variegated yellow.
238 Euphorbia pulcherrima.	..	..	..	7,000′	0 8	..	......
239 Eurya Japonica ..	..	Ternstroemiaceae.	Japan ..	7,000′	0 8	..	Mostly a shrub, with very slender twigs and flowers in little groups.
240 Evodia fraxinifolia.	American Beach.	Rutaceae ..	Himalayas ..	7,000′	0 8	..	A very fast growing tree with edible fruits.
241 Fagus ferruginea ..	European Beach.	Cupuliferae.	Europe ..	7,000′	0 8	..	A beautiful tree attaining a height of 50–60′.
242 F. sylvatica ..	..	Do.	Do. ..	7,000′	0 8	..	Similar to above but with violet coloured foliage.
243 Feijoa sellowiana ..	..	Myrtaceae ..	Brazil ..	7,000′	0 8	..	Flowers crimson and white with golden anthers.
244 Fagraea obovata ..	..	Loganiaceae.	India ..	7,000′	0 8	..	A shrub or small epiphytic tree with scented white or cream coloured flowers.
245 Ficus elastica ..	India rubber plant.	Moraceae ..	..	7,000′	0 8	..	A large evergreen tree sending down numerous aerial roots and with glabrous leaves.
246 F. macrocarpa ..	..	Do. ..	Nilgiris ..	7,000′	0 8	..	A large tree with glabrous leaves and big fruits and large clusters on old wood.
247 F. macrophylla ..	Australian Banyan Moreton Bay Fig.	Do. ..	Australia ..	7,000′	0 8	..	A fine big spreading tree with glabrous leaves; suitable for parks.
248 F. mysorensis ..	..	Do. ..	..	7,000′	0 8	..	Do.
249 Fitzroya patagonica.	..	Coniferae ..	Patagonia	7,000′	0 8	..	A large evergreen tree with slender spreading branches in curving at extremities.
250 Frenela rhomboidea.	Frenela ..	Do. ..	North Holland.	7,000′	0 8	..	A medium sized tree with graceful pine scented foliage.
251 Fuchsia arborescens.	Tree fuchsia.	Onagraceae.	Mexico ..	7,000′	0 8	..	A lovely shrub. Flowerheads not unlike lilac in appearance and colour.
252 F. corymbosa ..	Ladies ear drops.	Do.	Peru ..	7,000′	0 8	..	A weak shrub showy scarlet flowers.
253 F.C. var. Alba ..	..	Do.	Do. ..	7,000′	0 8	..	A weak—showy flowers white.
254 F. dominiana ..	Ear-ring flower.	Do.	..	7,000′	0 8	..	A fine shrub—beautiful scarlet flowers.
255 F. double (blue or white).	Tree fuchsia.	Do.	Peru ..	7,000′	0 8	..	A small pretty shrub with double blue or white flowers.
256 F. fulgens	Fuchsia ..	Do.	Mexico	7,000′	0 8	..	A beautiful shrub—flowers scarlet.
257 F. f. var. thalia ..	Do. ..	Do.	Garden origin.	5,000′	0 12	..	Useful as a pot plant flowers bright orange.
258 F. magellanica gracilis.	..	Do.	Mexico ..	6,000′	0 8	..	A small flowered variety useful for hedges.
259 Furcraea watsoniana.	Hemp ..	Amaryllideae.	..	6,000′	0 8	..	A very noble plant allied to Agave.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude at which the plant is most likely to thrive.	Price Each.	Price Per 100.	Remarks.

ORNAMENTAL TREES AND SHRUBS—*cont.*

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each. RS. A.	Per 100.	Remarks.
260 Gardenia obtusifolia.	..	Rubiaceae ..	Cape of Good Hope.	6,000′	0 8	..	Small deciduous tree with resinous and sticky buds and white flowers fragrant.
261 G. thunbergia ..	..	Do. ..	Do.	6,000′	0 8	..	Dwarf shrub—tubular white scented double flowers.
262 Gaura lindheimeri.	..	Onagraceae.	..	6,000′	0 8	..	A branching herb—slender spp.
263 Ginkgo biloba ..	Maiden hair tree.	Coniferae ..	North China.	7,000′	2 8	..	A curious tall tree with broad leaves like those of Adiantum.
264 Glochidion Neilgherrense.	..	Euphorbiaceae.	Nilgiris ..	7,000′	0 8	..	A small tree with flattish rounded outline and glabrous leaves.
265 Goldfussia anisophylla.	..	Acanthaceae.	Himalayas ..	5,000′—7,000′	0 8	..	A dwarf soft-wooded shrub bearing pale blue flowers similar to strobilanthes to which it is closely related.
266 Gomphocarpus fruticosus.	..	Asclepediaceae.	Mediterranean region.	6,000′ ..	0 8	..	Small shrub with white flowers.
267 Goodenia latifolia ..	Shower of gold.	Leguminoseae.	Australia ..	6,000′ ..	0 8	..	A small rapid growing shrub with yellow flowers.
268 Grevillea Banksii (var. forsterii).	..	Proteaceae ..	Do. ..	6,000′ ..	0 8	..	Flowers red esp. beautiful.
269 G. hilliana	..	Do. ..	Do. ..	7,000′ ..	0 8	..	Small sized tree with spherical shape.
270 G. robusta	Silver oak ..	Do. ..	New South Wales.	7,000′ ..	0 8	..	Handsome fernlike foliage—flowers golden yellow.

Serial number and botanical name.	Common name.	Natural order.	Natural habitat.	Altitude	Each.	Per 100.	Remarks.
271 Ginura densiflora ..	Velvet bush.	Compositae.	Java ..	7,000′ ..	0 8	..	....
272 Gynerium argenateum.	Pampas grass.	Gramineae ..	South America.	7,000′ ..	0 8	..	A noble grass suitable for margins of ponds.
273 Hakea saligna ..	..	Proteaceae ..	Australia ..	7,000′ ..	0 8	..	Tall willow leaved tree with white flowers.
274 Helianthemum variabile.	..	Cistineae ..	Mediterranean.	7,000′ ..	0 8	..	Low shrub with hairy leaves, flowers yellow.
275 Helitropium peruvianum.	Cherrypie ..	Boraginaceae.	Do.	7,000′ ..	0 8	..	A hardy shrub with attractive lavender—blue sweet scented flowers useful as hedge.
276 Heptapleurum racemosum.	..	Araliaceae ..	Nilgiris ..	7,000′ ..	0 8	..	A medium tree with stout branchlets.
277 Heynea trijuga ..	..	Meliaceae ..	India ..	3,000—6,000′	0 8	..	A medium tree with small pale-cream flowers in corymbose panicles with orange-yellow stamens massed in the centre.
278 Hibiscus hybrids ..	Shoe flower ..	Malvaceae ..	Tropical and temperate regions.	3,000′—6,000′	0 8	..	Flowers large showy ranging from pink to dark red—tall shrub.
279 Hiptage benghalensis.	..	Malphigiaceae.	India ..	3,000′—6,000′	0 8	..	Stout woody shrub with scented flowers leaves are of medicinal value.
280 Holmskioldia sanguinea.	Blood creeper.	Verbenaceae.	Do. ..	3,000′ ..	0 8	..	A fine shrub with curious red flowers.
281 H. hortensis var. Parzival.	..	Saxifrageae ..	..	6,000—7,000′	0 12	..	Flowers wine coloured.
282 Hydrangea opuloides.	Hydrangea	Do. ..	China ..	6,000′—7,000′	0 8	..	A grand shrub requiring moist situation flower heads large, blue or white.
283 Hymenosporum flavum.	..	Pittosporeae.	Australia ..	6,000′—7,000′	0 8	..	A tall slender tree with yellow flowers.
284 Hypericum Hookerianum.	St. John's wort.	Hypericineae.	..	6,000′—7,000′	0 8	..	A round-topped shrub with saucer shaped pale-yellow flowers.
285 H. Mysorense ..	Do.	Do.	Nilgiris ..	6,000′—7,000′	0 8	..	Flowers very large, yellow.
286 H. patulam ..	Do.	Do.	Japan ..	6,000′—7,000′	0 8	..	A bushy shrub with large yellow flowers.

ORNAMENTAL TREES AND SHRUBS—*cont.*

287 Iochroma tubulosa.	Blue cestrum.	Solanaceae	New Granada.	6,000—7,000′	0 8		A tall shrub-flowers deep violet.
288 Ilex cornuta	Holly	Ilicineae	North China.	6,000′—7,000′	0 8		Slow growing shrub, very like the common holly.
289 I. denticulata	Do.	Do.	India	6,000′—7,000′	0 8		A tree often very large with thick spreading branches.
290 I. wightiana		Do.	Nilgiris	6,000′—7,000′	0 8		A large beautiful evergreen tree and a requisite of the garden.
291 Impatiens hookeriana.	Balsam	Balsaminaceae.	Ceylon	6,000′—7,000′	0 8		A soft wooded shrub with large white flowers streaked blood-red.
292 I. Holstii	Do.	Do.		6,000′—7,000′	0 8		A very handsome balsam.
293 I. leschenaultii	Common shrubby Balsam.	Do.	Nilgiris	6,000′—7,000′	0 8		A well branched very leafy plant 2—3′ high—flowers white.
294 I. malabarica		Do.		6,000′—7,000′	0 8		....
295 I. oliveri	Ladies slipper or Balsam.	Do.	North America.	6,000′—7,000′	0 8		A perennial flowering pale rose in colour.
296 Indigofera grandifoliola.		Leguminoseae.		4,000′	0 8		....
297 Ixora grandiflora	Wild Jasmine.	Rubiaceae	Brazil	2,000′—7,000′	0 8		A showy shrub with red flowers.
298 Jacaranda mimosaefolia.	Green Ebony.	Bignoniaceae.	Do.	3,000′—6,000′	0 8		A beautiful tree—blue flowers produced in huge panicles.
299 Jasminum humile		Oleaceae	India	7,000′	0 8		A shrub—flowers small and yellow.
300 Juniperus Bermudiana.	Bermuda red cedar.	Coniferae	Bermudas	7,000′	0 8		A beautiful though tender spp. with long linear spreading light yellowish green leaves.

301 J. excelsa	Greek Juniper	Do.	Europe	7,000′	0 8		A medium sized tree.
302 Juniperus pachyphlaea.		Coniferae.	Mexico	4,000′	0 8		A tree often 50′ high with long stout spreading branches forming a broad-pyramidal and finally a round topped head.
303 J. procera		Do.	America and Africa.	4,000′	0 8		....
304 J. virginiana	Eastern Red Cedar or pencil tree.	Do.	North America.	4,000′	0 8		A tree 30—40′ high with ornamental and overlapping needle like leaves and bluish bloomy fruit.
305 Justicea Carnea		Acanthaceae.	California	2,000—7,000′	0 8		A petty shrub with pink flowers arranged like a water fountain.
306 Kerria japonica	Jew's mallow.	Rosaceae]	Japan	7,000′	0 8		Golden yellow numerous flowers—shrub.
307 Koelreuteria formosana.	Flame golden tree.	Sapindaceae.	Formosa		0 8		Bears panicles of small yellow flowers followed by large curious bladder-like seed pods.
308 Laburnum anagyrodies (vulgare).	Golden Chain or Bean tree.	Leguminosae.	Europe		0 8		Large shrub to small tree foliage yellowish, flowers golden yellow.
309 Lagerstroemia indica.	Common crepe myrth or Indian lilac.	Lythraceae.	China		0 8		An erect growing tall shrub—flowers purplish pink.
310 Laurus nobilis	Sweet Bay	Laurineae	South Europe.	7,000′	0 8		A fine shrub suitable for shrubberies —leaves used for flavouring.
311 Lavatera arborea	Tree mallow	Malvaceae	Do.	7,000′	0 8		A shrub up to about 8′, pink purple veined flowers.
312 L. cretica		Do.		7,000′	0 8		....
313 L. olbia	Bush mallow	Do.	South Europe.	5,000′	0 8		A small shrub about 6′ in height with reddish purple flowers.
314 Leptospermum flavescens.		Myrtaceae.	Australia	5,000′	0 8		A small shrub, with tiny, almost erect branchlets.
315 L. scoparium		Do.	New Zealand.	5,000′	0 8		Rounded bushy habit-narrow leaves.
316 L.S. var. Nicholsii.		Do.	Australia	5,000′	0 8		Star-shaped bright crimson—red flowers.

Serial number and botanical name. (1)	Common name. (2)	Natura order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Per 100. (7)	Remarks. (8)
ORNAMENTAL TREES AND SHRUBS—*cont,*					RS. A.		
317 L. stellatum ..	..	Myrtaceae.	Australia.	5,000′ ..	0 8	..	One of the hardiest of the family with white flowers slightly scented and of upright growth.
318 Leycesteria formosa.	Flowering Nut Meg.	Caprifoliaceae.	Himalayas ..	7,000′ ..	0 8	..	Sea green coloured stem. Flowers white tinged purple—shrub.
319 Libonia floribunda.	..	Acanthaceae.	Brazil ..	7,000′ ..	0 8	..	A small shrub with orange yellow flowers.
320 Ligustrum lucidum.	Chinese glossy privet.	Oleaceae ..	China ...	7,000 ..	0 8	..	A beautiful tree with large panicles of creamy white flowers.
321 L. ovalifolium variegatum.	Golden privet.	Do. ..	Japan ..	7,000′ ..	0 8	..	A beautiful golden leaved shrub.
322 Linum trigynum ..	Flax ..	Lineae ..	East Indies..	6,000′ ..	0 8	..	A small shrub—with yellow flowers.
323 Lippia citriodora ..	Sweet-scented verbena.	Verbenaceae.	Chile ..	6,000′ ..	0 8	..	A small shrub-leaves lemon-scented.
324 Litsaea wightiana.	..	Laurineae ..	..	6,000′ ..	0 8	..	A fair sized tree with leaves glossy on the upper surface.
325 Lobelia excelsa ..	..	Campanulnceae.	..	6,000′ ..	0 8	..	A tall coarse herb-flowers in dense purplish spikes.
326 Lonicera nitida ..	Shrubby Honey Suckle.	Caprifoliaceae.	China ..	7,000′ ..	0 8	..	A shrub with upright branches—makes fine hedge.
327 Loranthus memecylifolius.	..	Loranthaceae.	Nilgiris ..	7,000′ ..	0 8	..	Small shrub with reddish orange flowers.
328 L. recurvus.. ..	..	Do.	..	7,000′ ..	0 8	..	
329 Luculia gratissima.	..	Rubiaceae ..	Himalayas ..	7,000′ ..	1 0	..	A fine shrub, with large pink flowers.
330 L. Pinceana ..	..	Do. ..	Do. ..	7,000′ ..	1 0	..	Flowers pale pink—beautiful shrub.

Serial number and botanical name. (1)	Common name. (2)	Natura order. (3)	Natural habitat. (4)	Altitude (5)	Each. (6)	Per 100. (7)	Remarks. (8)
331 Macadamia ternifolia.	Queensland nut.	Proteaceae ..	Queensland..	7,000′ ..	0 8	..	A tall tree with rigid tiny toothed leaves—seeds edible.
332 Macaranga indica ..	..	Euphobiaceae.	India ..	7,000′ ..	1 0	..	A middle sized tree with little spread and big sized leaves.
333 344 Maesa indica ..	..	Myrsineae ..	Do. ..	6,000′ ..	0 8	..	A shrub often bearing deformed inflorescences like "Witches broom", with small white flowers.
334 Maesopsis eminii ..	..	Sapotaceae.	Uganda ..	6,000′ ..	0 8	..	....
335 Magnolia Campbelli.	Lily tree ..	Magnoliaceae.	Himalayas ..	6,000′ ..	1 8	..	A magnificent species with immense rosy pink, globe shaped flowers.
336 M. Parviflora ..	Potwire Magnolia.	Do.	America ..	5,000′ ..	1 0	..	A dwarf shrub with small tulip shaped wine coloured flowers.
337 M. grandiflora ..	Laurel-leaved southern Magnolia.	Do.	Do. ..	5,000′ ..	2 8	..	A beautiful tree—flowers of large and of a lovely creamy white colour.
338 M. liliflora	..	Do.	Japan ..	7,000′ ..	1 0	..	A shrub with pink flowers.
339 Mahonia leschenaultii.	Holly leaved barberry.	Berberidaceae.	Nilgiris ..	7, 000′ ..	1 0	..	Almost a tree with rough greyish brown corky bark and slender branches.
340 Mappia foetida ..	Stinking May tree.	Icacinaceae.	India ..	7,000′ ..	2 0	..	A tree with dark foliage and extraordinary evil-smelling white cymose flowers.
341 Melaleuca ericifolia.	..	Myrtaceae. ..	Australia ..	7,000′ ..	0 8	..	A graceful tree with fine foliage and scarlet flowers.
342 M. hypericifolia ..	Bottle brush.	Do. ..	Do. ..	6,000′—7,000′ ..	2 0	..	A graceful tree—scarlet flowers.
343 M. leucadendron ..	Cajeput tree.	Do.	Do. ..	6,000′—7,000′ ..	0 8	..	Slender medium tree with willowy branches and narrow—Green foliage creamy white bottle—brush flowers.
344 M. saligna ..	..	Do.	Do. ..	6,000′—7,000′ ..	0 8	..	Spikes of white flowers.
345 M. stypheloides ..	..	Do.	Do. ..	6,000′—7,000′. ..	0 8	..	Shrub with white bottle brush flowers.
346 Melianthes major.	Honeyflower.	Sapindaceae	Cape of Good Hope.	6,000′—7,000′	0 8	..	A straggling shrub with large serrated leaves and brownish flowers.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Per 100. (7)	Remarks. (8)
ORNAMENTAL TREES AND SHRUBS—*cont.*					RS. A.		
347 Meliosma arnottiana	..	Sabiaceae ..	Nilgiris ..	6,000′—7,000′	0 8	..	Has a spreading head and crowded cream coloured flowers.
348 M. wightii ..	Bastard Mango	Do. ..	Do. ..	6,000′—7,000′	0 8	..	A small tree with tall pyranudal panicles of cream-coloured small flowers, recalling those of the mango.
349 Michelia champaca.	Pand oil plant.	Magnoliaceæ.	Himalayas and Nilgiris	6,000′—7,000′	1 0	..	A tall tree with buffscented flowers.
350 M. excelsa ..	..	Do.	Do.	6,000′—7,000′	1 0	..	Flowers white, scented 4″ across.
351 M. nilagirica ..	..	Do.	Do.	6,000′—7,000′	0 8	..	A large tree with sweet-scented cream coloured flowers and red fruits.
352 Mimusops elangi ..	..	Sapotaceae.	..	6,000′—7,000′	0 8	..	A large tree glabrous shining leaves, fragrant white flowers and yellow fruits.
353 Monarda fistulosa ..	Wild bergamot	Labia-tae ..	America ..	6,000′—7,000′	0 8	..	A pretty shrub with purple flowers.
354 Monochaetum ensiferum.	..	Melastomacese.	Do. ..	6,000′—7,000′	0 8	..	Small shrub, beautiful, with pink small flowers.
355 Montanoa bipinnatifida.	Tree daisy.	Compositae.	Mexico ..	6,000′—7,000′	0 8	..	A straggling shrub with large heads of white flowers.
356 Morus indica ..	Common mulberry.	Urticaceae	India ..	6,000′—7,000′	0 8	..	A shrubby tree.
357 Muchlenbeckia complexa.	Kino Tree.	Polygonaceæ.	New Zealand	6,000′—7,000′	0 8	..	A quick growing rambling shrub makes a dense cover for old tree stumps.
358 Myrtus communis.	Myrtle ..	Myrtaceæ	South Europe	6,000′—7,000′	0 8	..	A small evergreen shrub with fine leaves and small white flowers.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Per 100. (7)	Remarks. (8)
359 Nerium Oleander ..	Oleander ..	Apocyanaceæ	..	6,000′—7,000′	0 8	..	A poisonous but beautiful shrub single and double white or pink flowers.
360 Noltia africana ..	..	Rhamneæ ..	Africa ..	6,000′—7,000′	0 8	..	Upright shrub virgatė branches, flowers whitish.
361 Oldenlandia stylosa.	..	Rubiaceæ ..	..	6,000′—7,000′	0 8	..	Evergreen tropical tree.
362 Olea fragrans ..	Olive ..	Oleaceæ ..	Japan ..	6,000′—7,000′	0 8	..	An evergreen shrub, nearly related to the olive.
363 Oreodoxa regia ..	Royal or Bottle Palm.	Palmæ ..	West Indies.	..	0 8	..	A tall palm—very graceful.
364 Osbeckia crinita ..	..	Melastomaceae	Nepal ..	7,000′ ..	0 8	..	Shru-flowers lovely crimson with gbolden stamens.
365 O. leschenaultiana.	Red osbeckia.	Do.	Nilgiris ..	6,000′ ..	0 8	..	Similar to above, but with narrower leaves and of smaller habit.
366 Osmanthus ilicifolius	..	Oleaceæ ..	Japan ..	7,000′ ..	0 8	..	Very like the holly tree but with variegated leaves.
367 Pavetta indica ..	..	Rubiaceæ	India ..	7,000′	0 8	..	A large shrub with scented white flowers.
368 Pentapanax leschenaultii.	..	Araliaceæ ..	Do. ..	6,000′—9,000′	0 8	..	A climbing species.
369 Pentas alba ..	..	Rubiaceæ ..	Africa ..	2,000′—7,000′	0 8	..	A herbaceous shrub with trusses of white flowers.
370 P. lanceolata ..	..	Do. ..	Do. ..	2,000′—7,000′	0 8	..	Similar to the above, but flowers pale-pink.
371 Pereskia bleo ..	Barbados goose berry.	Cactaceæ.	New Granada.	6,000′ ..	0 8	..	A soft-wooded prickly shrub.
372 Philadelphus coronarius.	Mock orange of syringa.	Saxifrageæ.	Europe ..	7,000′ ..	0 8	..	A beautiful shrub—creamy white flowers.
373 P. mexicanus var. coulterii.	..	Do.	Mexico ..	7,000′ ..	0 8	..	Petals with rich crimson at base.
374 Phlomis fruticosa.	Jerusalem Sage.	Labiatæ ..	Syria ..	7,000′. ..	0 8	..	Bright yellow flowers.
375 Phœbe paniculata.	..	Laurineæ ..	East Indies and Nilgiris.	7,000′ ..	0 8	..	A tree with rusty tomentosum.
376 Phoenix canariensis.	Canerian date palm.	Palmeæ ..	Canary Islands	7,000′ ..	0 8	..	Stately and ornamental palm.

ORNAMENTAL TREES AND SHRUBS—*cont.*

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Per 100. (7)	Remarks. (8)
					RS. A.		
377 Photinia lindleyana.	Lindley's Rowan or Chinese hawthorn.	Rosaceæ	Nilgiris	7,000′	0 8	..	A medium-sized tree with quite glabrous leaves, small white flowers.
378 P. notoniana	Common pulney Rowan.	Do.	Do.	7,000′	0 8	..	A medium-sized tree with spreading branches and white flowers tinged with pink.
379 Phormium tenax	New Zealand flax.	Liliaceæ	New Zealand	7,000′—8,000′	0 8	..	A striking plant with sword-like leaves and 3–6′ spikes of reddish yellow flowers, useful for fibre.
380 Pieris ovalifolia	Andromeda.	Ericaceæ	Nepal	7,000′	0 8	..	A small tree with profusion of white flowers.
381 Pinus canariensis	Canary pine.	Coniferææ	Canary Islands	7,000′	1 0	..	A tall handsome tree with lustrous leaves.
382 P. caribæa	Slash pine	Do.	Do.	7,000′	1 8	..	A tall handsome fast-growing tree with slender branches forming a round topped head with long tender light green lustrous leaves.
383 P. edulis	Nut pine; Pinyon.	Do.	Himalayas	7,000′	1 8	..	A small tree with horizontally spreading branches with dark green short, rigid leaves—slow growing-fruits edible.
384 P. insignis	Monetery pine	Do.	California	6,000′	1 0	..	A quick growing pine tree.
385 P. longifolia	Long leaved pine.	Do.	India	6,000′	0 8	..	A medium-sized tree.
386 P. Montezumæ	Solidad pine	Do.	..	6,000′	0 8	..	Large rigid leaves and cylindrical erect buds.
387 P. palustris	Long leaf pine	Do.	..	6,000′	0 8	..	A tall tree with long handsome dark-green foliage and ascending branches.
388 P. patula	Jelecote pine	Do.	..	6,000′	0 8	..	Makes a good specimen.
389 P. sabiniana	Digger pine	Do.	California	6,000′	0 8	..	A very beautiful pine tree.
390 Pittosporum floribundum.	..	Pittosporaceæ	Australia	6,000′	0 8	..	Small tree with yellowish flowers in short compact terminal panicles.
391 P. kirkii	..	Do.	Do.	6,000′	0 8	..	A small tree with sweet scented flowers.
392 P. tenuifolium	..	Do.	Do.	6,000′	0 8	..	Leaves bright green, undulate, pretty, used for cut foliage.
393 P. tobira	..	Do.	China	6,000′	0 8	..	Pretty compact evergreen shrub with greenish white flowers, suitable for shrubberies.
394 P. undulatum	Sticky seed	Do.	Australia	6,000′	0 8	..	A small tree, flowers sweet scented useful as wind belt.
395 Plantgo major	Waybread	Plantagineaceæ.	Nilgiris	6,000′	0 8	..	Perennial small shrub with stout rootstock.
396 Platanus orientalis.	Oriental plane	Platanaceæ.	Asia	6,000′	1 0	..	Beautiful tree known in Northern India as the Chinar.
397 Plumbago capensis.	Cape leadwort.	Plumbaginaceæ.	Cape of Good Hope.	4,000′	0 8	..	Small shrub—Flowers lovely sky blue.
398 Podocarpus macrophylla.	Shrubby yew podocarpus.	Taxaceæ	Japan	7,000′	1 0	..	Narrow dark green leaves—scarcely looking like a conifer that it is.
399 P. elongata	..	Do.	Cape of Good Hope.	7,000′	1 0	..	A spreading big tree—the bark peels off.
400 P. taxifolia	..	Do.	Andes	7,000′	1 0	..	Small evergreen tree.
401 Poinsettia pulcherrima.	..	Euphorbiaceæ.	Mexico	7,000′	1 0	..	Shrub with showy scarlet bracts.
402 Polygala arillata	Yellow milk wort.	Polygalaceae.	Himalayas	7,000′	0 8	..	Shrub 3′–6′ high with loosely growing branches with bright yellow flowers in drooping recemes. The pounded roots of this is used in brewing beer.
403 P. myrtifolia	..	Do.	Africa, and Australia.	7,000′	0 8	..	Densely branched shrub 3′–8′ high with large showy flowers in leafy recemes.

ORNAMENTAL TREES AND SHRUBS—*cont.*

					RS. A.		
404 Pomaderris apetala.	..	Rhamneæ ..	Australia ..	7,000′ ..	0 8	..	Bright mustard yellow flowers.
405 Prinsepia utilis ..	..	Rosaceæ ..	Andes ..	7,000′ ..	0 8	..	A bushy shrub white flowers—suitable for hedge.
406 Prunus acuminata.	..	Do. ..	Himalayas ..	7,000′ ..	0 8	..	An evergreen tree making a shapely specimen.
407 P. Laurocerasus ..	Cherry laurel.	Do. ..	Persia ..	7,000′ ..	0 8	..	Shrub with very ornamental foliage.
408 P. pissardi ..	..	Do. ..	Do. ..	7,000′ ..	0 8	..	Small tree with deep plum-coloured foliage and white flowers.
409 P. puddum ..	Himalayan cherry.	Do. ..	Himalayas ..	7,000′ ..	0 8	..	A tall tree with pink flowers produced in profusion when tree is leafless.
410 P. Serrulata ..	..	Do. ..	..	7,000′ ..	0 8	..	A tall growing "bird cherry" with polished leaves and buddleia like small pikes of white flowers changing to red, purple, and finally black berries.
411 Psoralea pinnata ..	Scurfy pea ..	Leguminoseæ.	Africa ..	7,000′ ..	0 8	..	Leaves pinnate resembling those of conifers. Flowers light blue with white wings.
412 Pygeum wightianum.	..	Rosaceæ ..	Siberia ..	7,000′ ..	0 8	..	A large tree, leaves glabrous above, brown beneath.
413 Pyrus baccata ..	Crabapple ..	Do. ..	Dahuria ..	7,000′ ..	0 8	..	A beautiful tree flowering freely resembling an apple tree when in bloom with pinkish white flowers.
414 Quercus cerris ..	Turkey Oak.	Fagaceæ ..	Asia Minor	7,000′ ..	1 0	..	A noble tree with dark lustrous leaf.
415 Q. coccinea ..	Scarlet oak.	Do. ..	Mediterranean egion.	7,000′ ..	1 0	..	Large bright green leaves turning to scarlet.

416 Q. Griffithii ..	..	Do. ..	Himalayas ..	7,000′ ..	1 0	..	Tree coppices freely for firewood.
417 Q. ilex ..	Holm oak ..	Do. ..	Mediterranean.	7,000′ ..	1 0	..	Very pretty tree, leaves similar to holly.
418 Q. inca ..	..	Do. ..	Nepal ..	7,000′ ..	1 0	..	A medium-sized tree evergreen gregarious tree with grey foliage
419 Q. Lanceaefolia ..	..	Do. ..	Himalayas ..	7,000′ ..	1 0	..	A small evergreen tree.
420 Q. macrocarpa ..	Overcup oak.	Do. ..	Japan ..	7,000′ ..	1 0	..	Tree with big-sized lobed leaves.
421 Q. macrophylla ..	..	Do. ..	North America.	7,000′ ..	1 0	..	Similar to above.
422 Q. montana ..	Chestnut oak.	Do. ..	..	7,000′ ..	1 0	..	A many branched tree, upright habit, leaves slender stalked, oblong, lanceolate and coarsely toothed.
423 Q. Rubra ..	Common red oak.	Do. ..	Europe ..	7,000′ ..	1 0	..	Fine red leaves in autumn.
424 Q. serrata ..	..	Do. ..	China ..	7,000′ ..	1 0	..	A handsome foliaged medium-sized spreading deciduous tree.
425 Q. sessiliflora ..	Durma stoak.	Do. ..	Europe ..	7,000′ ..	1 0	..	Tree with petiolate leaves and nearly or quite sessile acorns.
426 Q. suber ..	Cork oak ..	Do. ..	Do. ..	7,000′ ..	1 0	..	Fine tree the bark of which forms the cork of commerce.
427 Quillaja saponaria.	Soap bark tree.	Sapindaceæ.	Chile ..	7,000′ ..	0 8	..	Beautiful birch like tree.
428 Raphiolepis delacourii.	Hawthorn ..	Do. ..	Japan ..	7,000′ ..	0 8	..	Clusters of shell-pink flowers, slightly scented with dark-green glossy evergreen foliage.
429 Raphiolepis ovata.	Do. ..	Do. ..	Do. ..	7,000′ ..	0 8	..	A handsome shrub with dark green leaves and white fragrant flowers.
430 Rhamnus alaternus.	Buck thorn.	Rhamnaceæ.	..	7,000′ ..	0 8	..	Dense fast growing evergreen shrub growing up to 10′–15′.
431 Rhododendron arboreum.	Rose tree ..	Ericaceæ ..	Himalayas ..	5,000′—7,000′	1 0	..	Small tree with rough bark and clusters of red flowers.
432 R. kewense ..	..	Do. ..	Hybrid ..	5,000′—7,000′	1 0	..	Very large flowers overlaid with pale rose and fragrant.
433 R. ponticum ..	..	Do. ..	Syria ..	5,000′—7,000′	0 8	..	Particularly useful for planting in belts, screens, etc.

Serial number and botanical name. (1)	Common name. (2)	Natural order. (3)	Natural habitat. (4)	Altitude at which the plant is most likely to thrive. (5)	Price Each. (6)	Price Per 100. (7)	Remarks. (8)
					RS. A.		
434 R. veitchianum ..	..	Ericaceæ ..	..	4,000′—7,000′	0 8	..	Sometimes ephiphytic.
435 Rhodomyrtus tomentosa.	Hill goose-berry.	Myrtaceæ ..	Nilgiris ..	5,000′—7,000′	0 8	..	Shrub, bearing lot of fruits with persistent calyx.
436 Roupala Pohlii ..	..	Protaceæ ..	Brazil ..	5,000′—7,000′	0 8	..	Suitable for warm house, evergreen flowers, ornamental, covered with brownish wool.
437 Rhopalostylis sapida.	Nikau palm.	Palmaceæ ..	New Zealand.	5,000—7,000′	0 8	..	Spineless palms 6′—30′ high.
438 Rhus succedanea ..	Japanese wax tree.	Anacardia-ceæ.	China ..	5,000′—7,000′	0 8	..	Small deciduous tree entirely glabrous, lovely, brilliant, red in autumn, poisonous.
439 Romneya coulteri ..	Californian tree poppy.	Papaveraceæ.	California.	5,000′—7,000′	1 0	..	A tall showy white flowering shrub with poppy like flowers.
440 Rondeletia amoena.	..	Rubiaceæ ..	Mexico ..	4,000′—7,000′	0 8	..	Dwarf shrub with beautiful salmon-pink flowers.
441 Rosemarinus officinalis.	Rosemary ..	Labiateæ ..	Europe ..	4,000′—7,000′	0 8	..	Similar to lavender but with a different scent and shorter flower spikes.
442 Ruscus hypophyllum.	Butcher's broom.	Liliaceæ ..	Mediterranean Region.	4,000′—7,000′	0 8	..	Suitable as an undershrub.
443 Salix babylonica ..	Weeping Willow.	Salicineæ ..	Caucasus ..	4,000′—7,000′	0 8	..	Tree useful for margins and ponds.
444 S. heterophylla ..	Do.	Do. ..	Europe ..	4,000′—7,000′	0 8	..	Larger than above also suitable for margins of ponds.
445 Salvia officinalis ..	Sage ..	Labiateæ ..	Mediterranean region.	4,000′—7,000′	0 8	..	A small evergreen shrub with scented leaves.
446 Santolina chæmacyparissus.	Lavender cotton.	Compositeæ.	Europe ..	4,000′—7,000′	0 8	..	A small evergreen shrub with scented white leaves.

447 Sarcococca trinervia.	..	Euphorbiaceæ.	India ..	5,000′—8,000′	0 8	..	A glabrous evergreen shrub gregarious in shady places, green bark and yellowish white flowers.
448 Saurauja fasciculata.	..	Ternstroemia-ceæ.	Himalayas ..	6,000′—7,000′	0 8	..	A small tree producing large quantities of pink flowers, foliage very pretty.
449 S. napaulensis ..	..	Do.	Nepal ..	6,000′—7,000′	0 8	..	Do.
450 Schima wallichii ..	..	Do.	Himalayas ..	6,000—7,000′	0 8	..	A tall quick growing deciduous tree with big sized leaves and white flowers.
451 Schinus molle ..	Californian pepper tree.	Anacardia-ceæ.	Tropical America.	6,000′—7,000′	0 8	..	Very handsome tree with drooping branches and small evergreen leaves.
452 S. terbenthifolius ..	..	Do.	Brazil ..	6,000′—7,000′	0 8	..	Rampant growth, can be used as a hedge plant, leaves aromatic.
453 Senecio candicans.	Jacobæa ..	Compositeæ.	Nilgiris ..	6,000′—7,000′	0 8	..	A climbing variety with angular branches.
454 S. Greyii ..	Rag wort ..	Do.	New Zealand.	6,000′—7,000′	0 8	..	A small shrub with white velvety foliage.
455 Serissa fetida ..	..	Rubiaceae ..	Japan ..	6,000′—7,000′	0 8	..	Evergreen shrub with bluish white flowers.
456 Sophora glauca ..	Edwarsia ..	Leguminoseae.	Shevaroys ..	6,000′—7,000′	0 8	..	Shrub 6′-12′ with densely pubsecent branches and flowers in dense terminal racemes.
457 Spartium junceum.	Weaver's broom.	Do.	Europe ..	6,000′—7,000′	0 8	..	Foliage rush-like, covered with pretty pealike flowers, suitable for wild garden.
458 Spathodia campanulata.	Fountain tree.	Bigononia-ceæ.	Africa ..	6,000′—7,000′	0 8	..	A very pretty flowering shrub, flowers creamy white, orange.
459 Spiraea corymbosa.	Alleghany Meadow sweet Globe flower.	Rosaceæ ..	Asia and North America.	6,000′—7,000′	0 8	..	A very pretty shrub, flowers white.
460 Spiraea Japonica var. "Anthony waterer."	..	Do. ..	North America.	7,000′ ..	0 8	..	A very pretty flowering shrub, flowers red.

461 S. media ..	..	Rosaceae ..	North Asia ..	7,000′	0 8	..	A very pretty flowering shrub, flowers cream.
462 S. peruviana ..	..	Do. ..	Peru ..	7,000′	0 8	..	Do.
463 Spondias axillaris ..	..	Anacardiaceæ.	West Indies.	7,000′	0 8	..	A tall evergreen tree bark peeling off in long flakes, fruits edible.
464 Spygalia capensis ..	..	..	..	7,000′	0 8	..	..
465 Sterculia acerifolia.	Flame tree ..	Sterculiaceæ.	..	7,000′	0 8	..	A tall tree with large pendulous clustering bell shaped flowers.
466 S. diversifolia ..	Bottle tree ..	Do.	Australia ..	7,000′ ..	0 8	..	Bell shaped scarlet flowers.
467 S. Lurida ..	..	Do.	Do. ..	7,000′	0 8	..	Flowers creamy white.
468 Stillingia sebifera ..	..	Euphorbiaceæ.	China ..	7,000′	0 8	..	Medicinal shrubs.
469 Strelitzia angustifolia.	Bird paradise flower.	Scitaminaceæ.	Africa ..	7,000′	0 8	..	Shurb, 20′ high, flowers white.
470 S. reginæ ..	Do.	Do.	Do. ..	7,000′	0 8	..	Flowers blue and yellow 6′.
471 Streptosolen Jamesonii.	Burning bush.	Solanaceæ ..	Equdor ..	5,000′—7,000′	0 8	..	Shrub bearing large panicles of Orange flowers.
472 Strobilanthes cuspidatus.	Endopogon.	Acanthaceæ.	Nilgiris ..	5,000′—7,000′	0 8	..	Shrub 2′-5′, leaves white under side and slender spikes with sticky bracts and sepals.
473 S. lawsoni ..	..	Do.	..	5,000′—7,000′	0 8	..	Coarse hairy shrub 2′-3′.
474 S. neilgherrensis ..	..	Do.	..	5,000′—7,000′	0 8	..	Same as above.
475 Symplocos spicata.	..	Styraceæ ..	Nilgiris ..	5,000′—7,000′	0 8	..	A middle sized tree with spreading curved branches.
476 Syncarpia laurifolia.	Turpentine tree.	Myrtaceæ ..	Australia ..	5,000′—7,000′	0 8	..	A tall handsome tree.
477 Taxodium distichium mucronatum.	Deciduous swamp.	Coniferæ pinaceæ.	Mexico ..	6,000′	0 8	..	Deciduous cypress with aerial projecting knee-roots with fine leathery foliage.
478 Taxus baccata ..	English yew tree.	Coniferæ taxaceæ.	Europe and America.	6,000′	0 8	..	Makes a fine hedge.
479 T. brevifolia ..	..	Do.	Do.	6,000′	0 8	..	Allied to common yew but shorter less coriaceous petiolate mucronate leaves.
480 T. floridana ..	..	Do.	Do. ..	6,000′	0 8	..	Same as above.
481 Tecoma stans ..	Yellow elder.	Bignoniaceæ.	South America.	6,000′	0 8	..	A tall shrub with trumphet shaped yellow flowers, can be used for shrubberies and screens.
482 Tephrosia vogelli ..	..	Leguminoseæ.	..	6,000′	0 8	..	A medium spreading tree pale yellow flowers during December to February.
483 Ternstroemia Japonica.	..	Ternstaoeniaceæ.	..	6,000′	1 8	..	....
484 Thuja gigantea ..	Giant or lobbi Arbor-vitæ.	Coniferæ-pinaceæ.	North America.	6,000′	1 0	..	Most handsome and strong of the Thujas. A beautiful very tall slender pyramidal tree with dark glossy-green aromatic foliage.
485 T. japonica ..	Arbor-vitæ.	Do.	Japan ..	6,000′	1 0	..	An ornamental tree.
486 T. orientalis ..	Oriental Arbor-vitæ.	Do.	..	6,000′	1 0	..	Small compact densely branched tree.
487 T. O. filiformis ..		Do.	California.	6,000′	0 8	..	Erect slender ship-like branchlets.
488 Thysanolæna agrostis.		Gramineæ ..	Tropical Asia.	6,000′	0 8	..	A giant grass useful for margin of ponds.
489 Tibouchina semidecandra.	..	Melastomaceae.	Brazil ..	6,000′—7,000′	0 8	..	A tall shrub, flowers a lovely deep blue.
490 Thithonia tagetiflora.	Perennial Mexican sunflower.	Compositæ ..	Vera cruz ..	3,000′—7,000′	0 8	..	A shrub with large yellow sunflower like blooms.
491 Triscuspidaria dependens.	Crinodendron dependens.	Tiliaceæ ..	Chile ..	3,000′—7,000′.	0 8	..	A quick growing evergreen shrub with large fleshy pink pendant flowers.
